

PONHVATH VANN

Front-End Developer
vannponhvath@gmail.com
0212260622

PROFILE

Seeking a position as a Front-End developer. Previously had experience in coordinating with key stakeholders to develop front-end applications. I wish to bring my state of the art web development skills and experience to my next role. I have the ability to quickly learn and adapt with new stacks; I am organized and work well with teams. Simultaneously, I aim to explore beyond my comfort zone to enhance my technical skills and contribute to my self-development.
